

TUSHAR DAVID

Software Developer | MCA Graduate

Bidar, Karnataka | +91 9108968302 | tusharjohnson53@gmail.com

PROFESSIONAL SUMMARY

Software developer with an MCA and BCA, and hands-on project experience across Python, Java, SQL, and web technologies (HTML, CSS, JavaScript, Django, Bootstrap). Built and deployed academic and internship projects spanning database-driven systems, blockchain-based threat detection, data analysis, and full-stack web applications. Strong grounding in SDLC, OOP, and DBMS concepts, with a track record of translating requirements into working applications. Looking to bring this foundation to an entry-level software development role.

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript

Web & Frameworks: HTML, CSS, JavaScript, Django, Bootstrap

Databases: MySQL, SQL

Concepts: DBMS, SDLC, OOP, Data Analysis & Statistics, Blockchain Fundamentals, Cybersecurity Fundamentals

Tools & Platforms: VS Code, Jupyter Notebook, MySQL Workbench, Git

Operating Systems: Windows, Linux

INTERNSHIP EXPERIENCE

Software Development Intern — Robomanthan

Project: Dynamic Food Ordering App

- Built a full-stack food ordering web application using Django (Python), Bootstrap, and MySQL, covering menu browsing, cart management, and order placement.
- Implemented backend logic for order processing and data handling, applying SDLC practices from requirement analysis through deployment.
- Collaborated within a small team to design responsive front-end interfaces with HTML, CSS, and Bootstrap.

ACADEMIC PROJECTS

Adaptive Cyber Threat Detection Using Blockchain Analytics

MCA Project

- Designed an academic model applying blockchain principles — integrity, transparency, tamper-resistant logging — to detect and analyze cyber threats.
- Applied cybersecurity fundamentals and secure data handling practices to structure threat analysis logic.

Cryptocurrency Price Prediction System

BCA Project

- Analyzed historical cryptocurrency price data using Python to identify trends and generate predictive insights.
- Applied data preprocessing and statistical analysis techniques to improve the reliability of predictions.

Airline Ticket Reservation System

BCA Project

- Designed a database-driven reservation system in SQL handling flight search, seat availability, and booking records.
- Applied SDLC and data validation principles to ensure accurate, consistent booking data.

EDUCATION

Master of Computer Applications (MCA) — Guru Nanak Dev Engineering College, Bidar, Karnataka

Bachelor of Computer Applications (BCA) — Sharanbasva University, Kalaburagi, Karnataka

CERTIFICATIONS

- Data Analytics Course — QBITS (Online)
- Computer Fundamentals — KGTI, Kalaburagi

ADDITIONAL INFORMATION

Languages: English, Kannada, Hindi

Interests: Workout, Reading, Sports
